PRESENTATION OUTLINE

- Do your Delegates wait in long queue?
- Do you know who is actually coming?
- Do you know who is utilizing food/facilities at your expense?
- Do you know who is attending which part/how much they like?
- Can you utilize the present event to plan better in future?

All these questions are answered by IT SOLUTIONS PROVIDER-CAREDTEC

DO YOUR DELEGATES WAIT IN LONG QUEUE ?

When visitors enter your event, how do they register? Most likely receptionist asks his name and ask him to fill a form.Then after making a manual entry card. But this results in maddening rush and frayed tampers.

Pre-print Badges or Create them in 30 seconds or less

With CardTec Solution, visitors scan their event card to quickly capture pertinent information. This information is used to print a professional personalized visitor badge that clearly identifies visitors and their purpose for being in Event.

DO YOU KNOW WHO IS ACTUALLY VISITING?

You make databases on filled forms and assume that all of them are there.How much of this is correct ?

Maintain visitor records

The visitor information is stored in a secure database file that can be used to create visitor activity reports - you'll know who was in your Event, why they were there, and if they're still on the premises. Visitor information remains a private record and "guest snooping" is eliminated.

DO YOU KNOW WHO IS UTILIZES FOOD / FACILITIES AT YOUR END?

Do you know who is walking around your Event premises ? Do they belong there ? Are visitors easily identified at a glance ? who is utilizing food / facilities at your expense ?

Usually delegates are served launch / kits at tremendous expense to the organizers.But who is utilizing them ? The organizer depends on luck and hopes that every person is a genuine delegate and every person collects only ONE expensive kit.

Authenticate them

Our solution authenticate them and ensures cost savings to the event organizers.

DO YOU KNOW WHO IS ATTENDING WHICH PART / HOW MUCH THEY LIKE ?

Very often some parts of events are success and crowded by delegates and others are not liked . But the organizer has no clue afterwards.

The benefits and features of Electronic Event Registration bring a simple enhancement to generating MIS Report for Event Premises.

Through Electronic Event Registration We maintain the whole database records for visitor activity reports according to your requirements.

UTILIZE THE PRESENT EVENT TO PLAN BETTER IN FUTURE

Our reports ensure that your future events are even better organized and in tune with delegate requirements.
